and more open world

ACCESS TOKEN

These are used to access the key cabinet if you are not using your existing access cards. They are ordered individually.

ELECTRONIC iFOB

These are used to attach to the keys you wish to track. They are ordered individually.

SPLIT RING

These are used to attached the iFob to each key. We typically provide G-Rings but can provide split rings if required. They are ordered in packs of 100.

G-RING

These are used to attached the iFob to each key. We provide G-Rings instead of split rings with new orders by default. They are ordered in packs of 100.

SECURITY SEAL

These can be used to securely attach an iFob to a key where you wish to prevent keys from being removed from a specific iFob.

TWISTY SEAL

These can be used to securely attach an iFob to a key where you wish to prevent keys from being removed from a specific iFob. You twist the cable to join and crimp the seal.

VINYL COLOURING

We can provide vinyl colouring for the rows/door in the key cabinet to allow you to more clearly visualise areas of the key cabinet for specific keys.

iFOB STORAGE BLOCK

These are Perspex storage blocks that can be used to hold spare iFobs ready for attaching to keys.

iTAGS

Plastic tags that are branded to your dealership. They can be numbered to the position they need to be returned to or uniquely numbered to allow returning to any position and any key cabinet.

Black, Grey, White, Beige, Brown, Yellow, Orange, Red, Cerise, Pink, Lilac, Purple, Cyan, Blue, Turquoise, Teal, Green, Lime.
