Intelligent key and equipment vending solutions

traka

ASSA ABLOY

Experience a safer and more open world

## Who we are and what we do

Traka is the leading worldwide specialist in key, equipment and asset management solutions working with many forces to realise cashable and non-cashable savings. We manufacture automated vending solutions for keys, airwave radios and other specialist equipment and are a well recognised solutions provider to the public sector; our systems are in use in many prisons, police forces and hospitals across the UK.

## Traka's intelligent solutions enable you to implement superior control with:

- Key management to drug stores and other restricted secure areas
- Controlled access to, and the usage of, equipment such as drugs, defibrillators, mobile devices and other specialist apparatus
- Managing access to vehicle keys – record and report on mileage driven and vehicle defects during the period keys were out

## Intelligent Asset Management

Keys for secure areas and facilities

Radio handsets

Fleet and specialist vehicles

Laptops, mobile devices and specialist equipment

# Key and Equipment Vending

## Features

- Controlled access to authorised staff only
- Automated vending of keys and equipment from a secure fully audited system
- Automatically alert and notify should a key or item not be returned on time
- RFID tagging ensures every device is uniquely identified and managed

## Benefits

- Keys and devices are securely stored and accounted for, when not in use
- Staff are individually accountable, resulting in fewer losses and less damage
- Integrated battery charging ensures devices are always ready for use
- Audit and account for every key set and item 24/7 365 days per year
- Prevent unauthorised staff from driving fleet and specialist vehicles

## Traka software controlled solutions allow you to manage access to your fleet and ensures safe working processes by:

- Always know exactly who was driving each vehicle and when
- Report on mileage, fuel, hours used and even where the vehicle is parked
- Enforce alcohol testing for drivers before their vehicle keys are released
- Vehicle defects reported by the user automatically generate alerts to the service team and can lock-out access to vehicles with faults

## Find out how Traka can help your service

Ideal for keys, drugs, defibrillators and other specialist medical equipment, Traka key management and locker systems keep you in control and ensure efficient shift start times as keys and equipment are always available, ready for use and working. Our customer's report cost savings on pool equipment as they no longer need a device per staff member and less damage is recorded due to enhanced accountability.
