CHANGES AS OF TRAKA21 V1.7.1 [26-OCT-2021]

IMPROVEMENTS

- Japanese translations refined.

CHANGES AS OF TRAKA21 V1.7.0 [27-JUL-2021]

IMPROVEMENTS

- Portuguese now available from language options.

- USB drives are now detected immediately, before displaying a message to the user while it scans the drive.

- Improved low battery behaviour.

- Calibration can now be accessed from main admin menu.

- Added disk usage to Product Info screen.

- Admin users can now backup and restore the Traka 21 database. This is accessed from the new Data option on the Admin screen.

BUG FIXES

- Ampersand characters are now visible when using the lookup function.

- On screen keyboard now supports caps mode.

- Enabled Exit button on New PIN screen.

- Aligned fields on Key Lookup screen.

- Cancelling PIN change no longer logs user out of system.

- Fixed error when exporting key reports in Czech.

- Support code now displayed on help contact screen.

- Blank Save button on Date/ Time admin page in Japanese.

CHANGES AS OF TRAKA21 V1.6.0 [28-NOV-2020]

IMPROVEMENTS

- Support for Japanese language

- Volume Control added to General Admin screen

CHANGES AS OF TRAKA21 V1.5.1 [31-JUL-2020]

BUG FIXES

- Long warning messages are no longer truncated on the login screen.

- An issue with exporting very large databases has been resolved.

IMPROVEMENTS

- Database size is automatically managed by the removal of events over a year old or beyond a 250,000 limit.

- The accuracy of the clock has been improved.

CHANGES AS OF TRAKA21 V1.5.0 [26-JUL-2019]

IMPROVEMENTS

- PIN numbers are hidden

- PIN numbers are displayed as asterisks to improve security. This is where users are added or edited and also when users are exported. The PIN number can still be changed on import without asterisks.
