Experience a safer and
more open world

Local when you need us, global when it counts

About Traka

Traka is the global leader in intelligent management solutions for keys and equipment. Our solutions help all types of organizations better control their important assets, improving productivity and accountability, and reducing risk in critical processes.

We continuously invest in the development of our technology to provide leading, innovative, secure and effective real-world solutions to the challenges that organizations face in managing keys and equipment. Our solutions are tailored to customer needs and requirements, providing the most value and impact on their business.

Traka is a global organization with local support working to defined processes, so that we are local when you need us and global when it counts.

Traka is part of ASSA ABLOY Global Solutions, dedicated to re-imagining how people move through their world. Our expertise in customer journey mapping, innovation and service design leads to the invention of new security solutions that create value for our clients and exceptional experiences for end users.

TrakaMEC key control & peg system

TrakaMEC is a new addition to the Traka Automotive range of solutions. TrakaMEC is designed to meet the needs of many dealerships and service centres which are not yet demanding fully networked and integrated electronic key management systems.

It is a highly cost-effective and robust mechanical Peg-in-Peg-out Key management system. A user places their personal USERfob in the slot next to the desired key allowing them to remove the KEYfob with the keys they want.

The USERfob remains locked until the KEYfob is returned. Each USERfob can be customised with a Name ID seal which identifies who is currently holding the key.

Once the KEYfob has been returned, the USERfob is released allowing users to repeat the process with different keys they require.

TrakaMEC Supreme

Low cost, high security, outstanding quality - your ideal solution

The TrakaMEC Supreme series cabinets are constructed using the highest quality Union ASSA ABLOY components. Each cabinet is indicatively tested to LPS1175 and EN14450 standards, ensuring your security needs are always met.

Combined with the electronic Union Code Handle®, TrakaMEC Supreme allows up to 9 access code for permanent and temporary staff, with a key override function for extra peace of mind.

TrakaMEC Supreme is available in 3 single sizes 50, 100, 150 key capacity and 3 double sizes with expansion boards 100, 200, 300 key capacity.

Each TrakaMEC Supreme cabinet can be increased in capacity using expansion boards. As your business grows, TrakaMEC grows with you. If you have purchased a single supreme system you can double its capacity at any time by simply purchasing one of our expansion boards.

Union Coded Handle®, 9 user codes and 1 master code, with limitless changes possible

TrakaMEC Supreme L-Series
150 or 300* capacity
*inc. Expansion Board

TrakaMEC Supreme S-Series
100 or 200* capacity
*inc. Expansion Board

TrakaMEC Supreme M-Series
50 or 100* capacity
*inc. Expansion Board

TrakaMEC Supreme M-Series

Each TrakaMEC Supreme cabinet features a full length piano hinge and dog bolts running the length of the cabinet, providing the highest level of security against attack.

TrakaMEC Supreme S-Series

The unique door overlapping design prevents forced access to the locks when the cabinet is closed

TrakaMEC Lite

Looking for a lower cost solution? Don't need a highly secure cabinet?

TrakaMEC Lite systems utilise the key management panels as the TrakaMEC Supreme systems, but the savings are made by using a lighter, more cost effective cabinet enclosure.

TrakaMEC Lite is a low cost & effective mechanical key management solution that comes in black powder coated steel frame with a lockable T-Handle. TrakaMEC Lite is ideal solution where key management is required but there are lower security risks for customers.

TrakaMEC Lite is available in 3 single sizes 50, 100, 150.

Using the TrakaMEC Lite M-Series, we are able to offer licence plate organisers, which allows you to control up to 10 licence plates in a single cabinet (5 sets).

Accessories

As well as offering bespoke mechanical key management, TrakaMEC offers a variety of accessories to compliment to your system.

USERfobs

- USERfob for TrakaMEC mechanical key system
- A variety of colours available
- USERfobs are shipped in quantities of 10
E.g. Qty 1 = 10 USERfobs

KEYfobs

- KEYfobs for TrakaMEC mechanical key system
- A variety of colours available
- KEYfobs are shipped in quantities of 10
E.g. Qty 1 = 10 KEYfobs

Label seals

- Label seals for TrakaMEC mechanical key system
- A variety of colours available
- Label seals are sold in bundles of 50
E.g. Qty 1 = 50 Label seals

Mirror hangers

- Mirror Hangers can be used to identify the location of a key within the TrakaMEC system. The mirror hanger is designed to hang from the rear view mirror of a vehicle. Users can number the mirror hanger to correspond to the key position within the TrakaMEC cabinet.
- Mirror hangers are sold in packs of 10

Plinth

- The TrakaMEC plinth comes in two separate sizes, designed to take the weight of the cabinet, reducing the load on a mounting wall
- Only available for TrakaMEC Supreme cabinets
