

HC Large key cabinet

Specifications

traka
ASSA ABLOY

Experience a safer and more open world

Traka HC key cabinets are uniquely designed for applications which require strict control over a high volume of keys in a small footprint. These electronic systems offer controlled and automated access, while retaining a complete audit trail of all key activity.

Paired with the suite of administrative tools and detailed reporting via our web-based software, the HC line of cabinets offer a total solution for the property management industry.

Features

- 16-gauge, powder-coated steel construction
- 3 cabinet sizes available
- Free standing or wall mounted
- 10" touchscreen interface
- Secure storage and management for over 500 keys in a single cabinet
- Add-on cabinets can increase the capacity using a single interface
- Easy access via PIN code, card reader and biometric fingerprint reader
- Full audit trail of all user and key transactions
- Integrated camera captures image of every check in/ check out attempt
- Enrol and edit keys right at the cabinet
- Emergency Key Mapping allows keys to be identified in case of a power failure

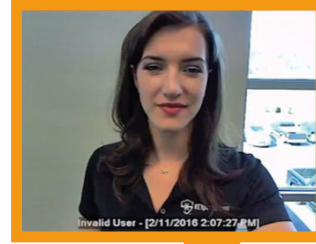

Intuitive touchscreen interface

SmartFob

- Compact design allows for higher key capacity
- Tamper evident design
- Fobs are unlabelled, for enhanced security of keys when out of system

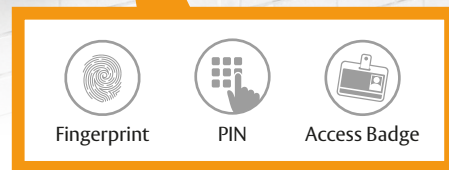

Integrated camera captures every login attempt
